

Narnia Map

As we read *The Lion, the Witch, and the Wardrobe* you have been using your visualizing strategies to imagine what the land of Narnia must look like. This project will allow you to show us your interpretation of this magical place.

Here's what you do:

1. List all of the places that are significant in the land of Narnia. Note any details necessary to help you construct your map later on.
2. Include the characters associated with these places and any significant objects.
3. Complete a rough draft prior to beginning your final draft to ensure that you have worked out all the kinks.
4. Determine how you will include the following into your final draft:
 - a. Title of the map
 - b. A key or legend that includes a symbol for each character and object
 - c. A scale for distances (use your best judgment).
 - d. Other items you think are important to "tell" the story in a picture map form
5. You may be as creative as you desire with this project- the sky is the limit...
